EDUCATION

B.E., Artificial Intelligence & Data Science — MET Institute of Engineering, Nashik

CGPA: 8.8 | 2023 – Present

TECHNICAL SKILLS

Languages	C++ , Python , JavaScript , TypeScript
Frontend	React.js , Vite , Zustand , Tailwind CSS , Jinja2
Backend	Node.js , Express.js , Flask , Socket.IO , REST APIs , LangChain
DevOps & Cloud	Docker, Kubernetes, Jenkins CI/CD, AWS , Linux
Databases	MySQL, Mongo , Postgres , Redis (TTL , Pub/Sub)
Tools	Git, GitHub, Postman, VS Code

EXPERIENCE

Deep Learning & Full Stack Intern

Dec 2025 – Feb 2026

AI Leela (OM Intelligence)

Python · Flask · Docker · Ubuntu · LangChain · Gemini 2.5 Flash-Lite · MySQL · Google OAuth2 · SQLAlchemy

- Built **Doctorra** — AI-powered Clinic Queue & Intake System with QR-code check-in, real-time Kanban dashboard, and **Gemini 2.5 Flash-Lite triage** (via LangChain) that generates personalized MCQs per patient complaint with **100% uptime smart fallback**.
- Implemented Google OAuth2 + local auth, modular Flask Blueprint architecture, SQLAlchemy ORM on MySQL; containerized with Docker Compose on Ubuntu — **recognized by CEO & CTO for product-first mindset**.

LEADERSHIP

Open Source Lead

Sept 2025 – July 2026

Google Developer Group on Campus, MET Institute of Engineering , Nashik

- Organized 5+ workshops and agile sessions for a **300+ member community**; mentored 40+ students on Git, cloud tools, and full-stack development across many collaborative projects.

PROJECTS

Drawwww — Real-Time Collaborative Whiteboard & AI Party Game Platform

aetheriia.vercel.app

React · TypeScript · Node.js · Socket.io · HTML5 Canvas API · Gemini 2.0 Flash · Groq (Llama 3.3 70B) · Docker

- Built a custom 3-layer HTML5 Canvas raster engine from scratch — **sub-16ms (~60 FPS) rendering** with pressure-simulated brushes, flood fill, pixel erasers, and 7 drawing tools. No Fabric.js, no shortcuts.
- Real-time multiplayer via Socket.io for 20+ concurrent users — live cursors, instant sync, and **server-managed undo/redo that never conflicts** across users. Deployed via Docker Compose.
- Two AI game modes: Gemini 2.0 Flash Vision scores drawings 0–100, Groq Llama 3.3 70B generates words on the fly. Empty-canvas detection **cuts Gemini API calls by ~40%**.

CodeShare — Real-Time Collaborative IDE & Secure File Workspace

codesharre.vercel.app

React · Node.js · Socket.IO · Redis · AWS S3 (Filebase) · Groq AI · LibreOffice · Vite

- VS Code-inspired multi-file collaborative IDE with **1000ms debounce latency compensation** — keystrokes feel instant, network sync fires only on value diff. Redis Host Queue manages role promotion and ownership transfer on disconnect.
- Groq AI Code Analysis (llama-3.3-70b) scans for vulnerabilities and bugs; results cached in Redis (1h TTL) — **100% redundant call elimination**. In-browser preview for 5 file types including PPTX via headless LibreOffice.
- AWS S3 pre-signed URLs for direct-to-cloud uploads — 0 bytes through the server. Rooms auto-expire via 2h Redis TTL with **cron-reconciled S3 orphan cleanup, ensuring zero storage leaks**.

ACHIEVEMENTS & CERTIFICATIONS

Achievement 1st Place — GDG Nashik Hackathon 2025

Certifications Cloud Practitioner — GFG • Generative AI Certificate • C++ Spoken Tutorial — IIT Bombay • Python — IIT Bombay
